DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to an acceleration sensor having a terminal pin extending through a cover equipped with a printed board, classified in class 73, subclass 514.34.
 - II. Claims 12-17, drawn to an acceleration sensor oscillating in two modes with a first mode resonance frequency f_0 and a second mode resonance frequency f_{01} , classified in class 73, subclass 514.34.
2. Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because all of the limitations of I are not in II. The subcombination I has separate utility such as an accelerometer using different frequencies different than that of II.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, search

and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the repley to this requirement to be complete must include an election of the invention to be examined even tough the requieirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helen C. Kwok whose telephone number is (703) 308-8149. The examiner can normally be reached on 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron E. Williams can be reached on (703) 305-4705. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-4900.
